

Manual cutting gets to **new thicknesses**

WHAT IS? POWER TRIM PLUS is the high-performance manual cutter, available in a wide range of cutting measures. Thanks to the availability of the 2.1 and 2.5 meters models, Power Trim Plus suits the business needs of digital print shops, service centers and photo labs. The cutting thickness up to 2.2 mm also allows holders of UV flatbed printers to easily cut cardboard, plastics, thin panels and high-thickness PVC banners.

Main features

The **Power model** is equipped with reinforced cutting table, a rotating blade cutting head in hardened steel, a fixed blade in painted stainless steel mounted on a sturdy ball-bearing shuttle. The standard equipment includes a container for the collection of waste and the adjustable alignment guide.

Options and accessories

Among the options available are the reel-holder and a lamp for illuminating the cutting area.

Datasheet	105	145	165	210	250
I Max cutting thickness	2,2 mm	2,2 mm	2,2 mm	2,2 mm	2,2 mm
I Cutting length	105 cm	145 cm	165 cm	210 cm	250 cm
I Length	129 cm	169 cm	190 cm	234 cm	274 cm
I Width	48 cm	48 cm	48 cm	48 cm	48 cm
I Height with stand	95 cm	95 cm	95 cm	95 cm	95 cm
I Height working table	87 cm	87 cm	87 cm	87 cm	87 cm
